

(a) Step 1. Input and environment

OSM Scientific Converter 0.4.1

Project

1 Input & environment

2 Data overview

3 Feature selection

4 Preview & quality

5 Export

Step 1 - Input and environment

Input

OSM file: D:\OSM\Datasets\berlin-260802.osm.gz

Project directory: D:\OSM\Datasets\berlin-260802.osm_project_v041

Scan options: ☒ Keep raw master (required for classification and export)

File information: RPF: 34,23 MB - SHA-256: c280a670309a1777c07c38a5ea1d6eb3d3caded68110f1388ca894

System resources: Memory available 8.6 GB / 23.8 GB, Disk available 1590.6 GB

Environment check: { "checked_at_utc": "2026-09-04T22:48:50.306Z", "system": { "version": "3.13.14", "executable": "D:\OSM_Scientific_Converter_English\OSM_Scientific_Converter_Final_GitHub_English_v0.4.1\dist_english_v041\dist\OSMScientificConverter_v0.4.1.exe" } }

Inspect input and environment

Start scan

Background tasks

Ready

Scanned 10154 features from other_relations

[54] Writing deterministic reports and project manifest

[6/6] Building privacy-minimised feedback bundle

Cancel

(b) Step 2. Data overview

OSM Scientific Converter 0.4.1

Project

1 Input & environment

2 Data overview

3 Feature selection

4 Preview & quality

5 Export

Step 2 - Data overview (read-only, lazy queries)

Objects 2,325,682, unique keys 6,226, unique key/value pairs 445,244, lifecycle records 2,238.

OSM layer	Objects
1 points	1,188,826
2 lines	424,902
3 multilinestrings	1,537
4 multipolygons	899,243
5 other_relations	10,154

Key	Count	Unique values
1 highway	631,212	54
2 building	537,171	212
3 address:street	454,388	10,048
4 addr:housenu...	452,931	8,524
5 address:city	447,953	39

Lifecycle	Count
1 discarded	6,986
2 used	2,750
3 construction	2,857
4 abandoned	2,310
5 removed	1,006

Parsing anomalies / OSM warnings

No scan warnings were recorded.

Background tasks

Ready

Scanned 10154 features from other_relations

[54] Writing deterministic reports and project manifest

[6/6] Building privacy-minimised feedback bundle

Cancel

(c) Step 3. Feature selection

OSM Scientific Converter 0.4.1

Project

1 Input & environment

2 Data overview

3 Feature selection

4 Preview & quality

5 Export

Step 3 - Feature selection

Option 1 - Built-in thematic profiles

Option 2 - Dynamic key/value inventory (lazy + paginated)

Option 3 - Simple rule builder / advanced JSON

Category / rule: Default export

Category: cable

Rule: gpt_custom_rule

Key: power

Operator: isequal

Value: substation

Build and validate rule

Load advanced JSON profile

Run classification

Background tasks

Ready

Classified 1557 objects from multilinestrings, matched 0

Classified 69043 objects from multipolygons, matched 342

Classified 10154 objects from other_relations, matched 0

Cancel

(d) Step 4. Preview and quality checks

OSM Scientific Converter 0.4.1

Project

1 Input & environment

2 Data overview

3 Feature selection

4 Preview & quality

5 Export

Step 4 - Preview and quality checks

Load / refresh bounded preview

Run pre-export quality checks

Sample size: 50

Automatic repair (disabled)

Category-visibility

generator

generator:lifecycle

lifecycle

plant

pole

portal

substation

switchgear

tower

Showing 2,000 / 6,738 classified objects (bounded preview)

Complete tags

Quality report

Background tasks

Ready

Reading up to 2,000 classified geometries

Cancel

(e) Step 5. Export

OSM Scientific Converter 0.4.1

Project

1 Input & environment

2 Data overview

3 Feature selection

4 Preview & quality

5 Export

Step 5 - Export

Export settings

Format: GPKG

Coordinate reference system: EPSG:4326 - WGS 84 (native frozen-core CRS)

Categories: ☒ cable (383), ☒ converter (1)

Fields (traceability fields are mandatory): ☒ osm_id (required), ☒ osm type (required)

Output location: D:\OSM\Datasets\berlin-260802.osm_project_v041\Results_export\Berlin.gpkg

Estimated classification records: 6,733. GPKG counts unique objects; GeoJSON/Shapefile count object-category records.

GPKG/GeoJSON retain complete tags_json. The audit reports observed truncation only and does not make a universal lossless claim.

{ "counts": { "feature_count_semantics": "unique classified objects grouped across selected categories", "feature_writer": 6736 } }

Export in background

Open output folder

Background tasks

Ready

Exporting power as GPKG

Cancel

Export completed: 6,726 features
